

WHEN TONGUE IS COATED

Your liver is torpid and is affecting your stomach. Take *Dr. Williams' Pink Pills*. They relieve biliousness, constipation, all liver ills. Do not irritate nor grip. Price 25c. of druggists or C. I. Hood Co., Lowell, Mass.

HEADACHE FROM A COLD? LISTEN!

"Pape's Cold Compound" Ends Severe Colds or Grippe in Few Hours

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—Adv.

TURKISH CROWN PRINCE ASSASSINATED

Cherif Pasha, Leader of Opposition, Alleges Yussuf Izzedin Was Murdered By His Suite.

Paris, Feb. 4.—"Yussuf Izzedin, whatever may be said, was assassinated by his suite, by order of the Committee of Union and Progress," said Cherif Pasha, who, with Prince Sabah Edin, directs the principal movement of the Turkish opposition, to a reporter for The Matin. "Latterly Yussuf had revolted against the dictatorship of the Young Turks. He became dangerous and he has been removed. His successor and cousin, Vahid Edin, is even more hostile to the Young Turks than was Yussuf. I should not like to make prediction regarding the length of his life," said Cherif Pasha in conclusion.

Berlin, via London, Feb. 4.—The "suicide" of the Turkish crown prince, Yussuf Izzedin, has stirred a sympathetic chord in Berlin, where he was several times a visitor. His death is regretted here because the prince was held to be thoroughly in sympathy with western ideas and regarded as likely to take a leading part in the advancement of Turkey. It is doubted here whether the death of the prince will have political consequences.

DATE SET.

Willard-Morgan Fight Will Be Held on March 17.

New York, Feb. 4.—Tex Rickard, the California promoter, announced here yesterday that Jess Willard had signed a contract at Chicago to meet Frank Morgan here in a 10-round bout on March 17. Rickard has guaranteed \$80,000 for the match, of which Willard is to receive \$40,000 and Morgan \$20,000, he said.

Rickard said that he received the assurance of Willard having signed this agreement from his (Rickard's) representative, Dave Lewishorn, over the long distance telephone from Chicago. Rickard some time ago secured Morgan's signature consenting to meet Willard and the promoter feels that the bout will take place on or about the date mentioned, somewhere in greater New York.

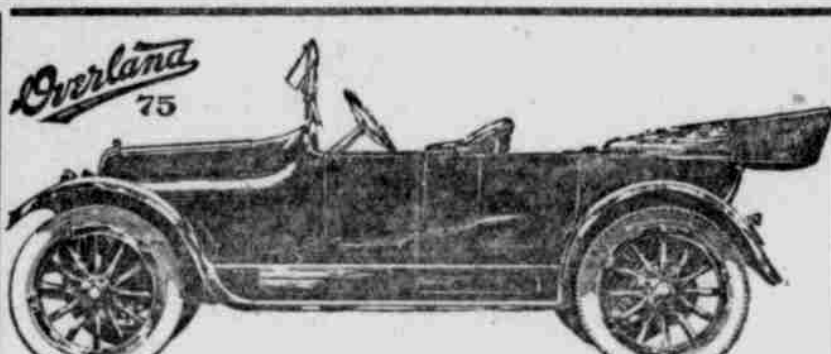

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of sage tea and sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggy, just an application or two of sage and sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Weyth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, thickness and luster of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Weyth's Sage and Sulphur," because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.—Adv.

WILSON WANTS GREATEST NAVY

St. Louis Cheers "Genuine, Not-Pretended Neutrality"

PRESIDENT CLOSES WESTERN TOUR

"Free Field and No Favor, All That America Wants"

St. Louis, Feb. 4.—President Wilson declared here yesterday in the last speeches of his present tour that he believed there would never be another war like the present and that the war will hasten the time of general peace. In an address before the St. Louis Business Men's league, he explained that the United States must keep out of the war if possible, "in order to help in the healing processes."

The president declared that such a war can never come again; that it will never come again; and that the war will put forward the time of universal peace better than anything else could.

The president spoke to about 15,000 people in the Coliseum. He said in his address that for the most part the instructions to submarines were in accord with international law, but that the act of one commander might cause trouble. "America is at peace with all the world and wishes to remain at peace," he said.

"It would tear the heart strings of America to be at war with any other nation."

"America has drawn no fine points, no new issues in her international relations; she has merely asserted the rights of mankind when the life of mankind is threatened in a world at war. I am ready to make every patient allowance for those whose tempers are upset by war. I am ready to yield everything but the vital points. I am ready to make allowances for both sides."

"You know how one set of belligerents is shut off from the rest of the world. Therefore, the United States is not able to express itself toward them as they would like. I believe the United States is really neutral. My fellow citizens, while we know we know our own purpose it does not follow that other nations understand. The peace of the world, including America, rests with the remainder of the world and not with America."

"You have either got to get the men of this nation ready to withstand the first onslaught or you have got to be ready to suffer from the first disaster. The plans now before Congress are merely plans to save the lives of American youths and those plans will go through. I am not insisting upon details, but upon the principle."

"The coast line of the United States is so long that we ought to have the greatest navy in the world."

"Every day I have been away from Washington I have had just this feeling: The country is up; there is not a man who is awake who does not realize what the situation is and what we should do to meet the situation."

The president emphatically reiterated that he believed the United States was with him.

CONSCRIPTION BILL IN FORCE FEB. 11

King George Signs Proclamation Setting Date of Military Service Measure.

London, Feb. 4.—King George, at a privy council yesterday, signed a proclamation fixing Feb. 11 as the appointed date on which the military service act shall be regarded as coming into force.

According to the law, all single men between the ages of 19 and 41 who have not attested under the call of Derby's recruiting plan and are not exempt under the act are allowed until March 2 to attest. After that time they become conscripts and may be compelled to serve.

Like Father, Like Son.

In the February Woman's Home Companion we read that young Richard Mansfield at 18 has distinguished himself at the organization of amateur theatricals and has shown other capabilities to be looked for in the son of the late actor. Let us hope this will develop so that he may carry on his father's work.

YOU'RE BILIOUS! CLEAN LIVER AND BOWELS TO-NIGHT

Don't Stay Headachy, Sick, or Have Bad Breath and Sour Stomach

Wake Up Feeling Fine! Best Laxative for Men, Women and Children

Enjoy life! Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, breath offensive, and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarats from the drug store and eat one or two to-night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced? You will wake up feeling fit and fine. Cascarats never gripe or sicken like salts, pills and calomel. They act so gently that you hardly realize you have taken a cathartic. Mothers should give cross, sick, bilious or feverish children a whole Cascarat any time—they act thoroughly and are harmless.—Adv.

DENIES MORGAN NEW WAR LOAN FOR THE FRENCH

His Trip to Europe Is Not Connected with Further Advance of \$250,000, 000—Stettinius, Export Chief, to Cross Ocean.

New York, Feb. 4.—A denial that J. P. Morgan's visit to Europe was connected with negotiations for a new French government loan was made yesterday by Octave Homberg, financial agent in this country for the French government. Mr. Morgan sailed Wednesday on the Rotterdam for the reported purpose of arranging a new French credit of about \$250,000,000 in this country. E. B. Stettinius, of Mr. Morgan's office, is to sail shortly, it is reported, to arrange for additional "war contracts."

B. & M. R. R. TIES FOR BRITISH TRENCHES

Government Would Purchase 100,000 at Five Cents Each to Use in War—To Buy 500,000 Throughout New England.

Boston, Feb. 4.—The British government has asked the Boston & Maine railroad to deliver at once over the entire system of ties for use in constructing trenches in France. It is understood other American roads also have been given similar orders and that the total order for New England alone is for 600,000 ties.

The British government offers five cents per tie, and will also pay for transportation and labor or other expenses in procuring and preparing the ties for shipment.

The Boston & Maine is unable to ship any ties at present, but the company yesterday sent orders over the entire system that, until further notice, no ties shall be burned, sold or otherwise disposed of.

It is the practice of railroads to burn all old ties, after they are removed and piled, in bonfires by the road bed. No extensive use of this discarded material has heretofore existed.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning insulin bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost very little, but is sufficient to make any one pronounced rank on the subject of internal sanitation.—Adv.

"MARSE" HENRY PREDICTS

Colonel Watterson Is Certain of Wilson's Re-election

TALK ABOUT HUGHES IS "CHATTER"

No Stock Is Placed in the Clark-Bryan Union

Miami, Fla., Feb. 4.—President Wilson's preparedness programme will be defeated in Congress, thinks Colonel Henry Watterson, leading Democratic newspaper man in the country, but neither the defeat of that programme, nor anything else, will prevent the president from being renominated, thinks Mr. Watterson. "And this talk that he will not accept the renomination if the country does not rally to his national defense plan, is all rot," says the veteran editor. "He will accept that nomination without a doubt. He is a candidate and no candidate ever believes in his own defeat. And if his luck hasn't exhausted itself, he will be re-elected."

Colonel Watterson is spending the winter at Miami. So is William J. Bryan. Water and oil do not mix. Neither do Colonel Watterson and Colonel Bryan. They never meet.

From his hotel in Miami Colonel Watterson keeps his finger on the pulse of the nation just as though he sat at his desk in Louisville. "The president seems over excited," he said in an authorized interview Wednesday. "That is because he is a candidate for re-election. But that any complete plan of 'preparedness,' whether proposed by the administration or compiled by the committee of Congress, more or less hysterical, and, in spite of theorists and experts, still very far at sea, may be doubted. It is an ill time for constructive statesmanship! Too much party politics to muddle public opinion for one thing. Too many cooks to spoil the broth of legislation for another. Over all, the presidential election directly ahead."

Mr. Watterson believes in an increase in the size of both the army and navy, but sees no immediate use for either, regardless of the outcome of the European war.

"Mr. Watterson, how about the report that Bryan and Clark are to join hands to prevent Wilson's re-nomination. 'This is as it were the story of a cock-and-a-bull.' After what happened at Baltimore, there can be no rapprochement between Clark and Bryan. Each would have to be made over. Bryan and Clark will combine neither for nor against any man."

"Who will be the Republican standard bearer?"

"No matter who else it may be, it will not be Hughes," was the answer. "This talk about Hughes is mainly chatter. If fate must choose to be president, fate would have lifted him bodily from Albany to Washington. Great judges have always proved disappointing candidates. Hughes is no small bunch of an iceberg himself. The faithful, who he the nominating wood and haul the campaign water, want their 'look in' and they can see no promise in those cold, steel-gray eyes of his, not to mention an attending conscience which has shown itself singularly unadjustable."

"As I stated some time ago, I am drawn into the impression that Theodore Roosevelt may be the Republican nominee. The suggestion should prove posterous. Yet strange things have happened—and we live in a land and an era of the paradoxical. No one who has considered the character, the antecedents and the methods of the ex-president can doubt that he is a candidate. His coquettishness with Root and Hughes will certainly not deceive Hughes and Root. The basis of his pretension, the popular support he received in 1912; of his hope the chaos which envelops the Republican situation. The leaders and the masses of the party are all at sea."

BARE TOES GO IN BOSTON.

Mayor Will Not Stand for Uncovered Ankles, However.

Boston, Feb. 4.—Mayor Curley has no objection to a display of naked toes on the stage. Anything above that doesn't go. The mayor's edict was issued in regard to the Russian ballet at the Boston opera house.

The city's board of censors at Wednesday's meeting discussed the ballet. Finally, but decided to take no action. Shortly afterward, however, the mayor instructed John M. Cassin, a command clerk, to request the management of the ballet to attend to the matter of providing the dancers with a proper covering for their lower limbs.

"The board decided there was nothing irregular or improper about the ballet," said the mayor. "I have requested the management, though, to cover the bare limbs. I have no objections to the bare toes, however."

VILLA NEAR BORDER.

With Mule Train of Stolen Gold Bullion, He is Headed Towards Texas.

El Paso, Tex., Feb. 4.—General Francisco Villa with a mule train of stolen gold bullion, is headed toward the international line in the Roque Bonito country near Sierra Blanca, Tex., according to General Gabriel Garcia, commandant at Juarez. Garcia said he had ordered Lieutenant Colonel Rojas at Ojinaga to close in on Villa from the east while Major Ortiz moves from Juarez and Guadalupe and General Luis Herrera from Chihuahua City, all on the trail of Villa.

The American vice consul at Durango reported yesterday that he had been officially informed that General Arguendo and other rebel officers and men captured by General Muñeruela are being brought to Durango.

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVES' signature is on each box. 25c.—Adv.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at Once When Back Hurts or Bladder Bothers

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid, which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful, effervescent, lithia-water drink, which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

FEDERAL COURT UPHOLDS ELECTION CONVICTION

Donn M. Roberts, Former Mayor of Terre Haute, and Ten Others Appealed.

Chicago, Feb. 4.—The convictions of Donn M. Roberts, former mayor of Terre Haute, Ind., and ten others found guilty with him of election frauds, were sustained by the United States district court of appeals here yesterday.

NAVY'S SECRET BOOK GONE.

Officers To Be Court-Martialled for Loss of Code.

Washington, Feb. 4.—Lieut. Herbert A. Jones, commander of the reserve torpedo flotilla, and Ensign Robert D. Kirkpatrick, navigation officer, were ordered court-martialled yesterday because of the loss or theft of the navy's secret code book from the destroyer Hull.

Jones was commanding officer and Kirkpatrick next in command of the Hull, stationed at Mare Island navy yard at the time the code disappeared. Navy officials admitted that the code in the hands of a foreign government would prove more than merely embarrassing to the department even during peace times.

AIRSHIP CIRCLES POWDER PLANT

Aeroplane Seen Hovering Over DuPont Works at Carney Point, N. J., Wednesday Night.

Wilmington, Del., Feb. 4.—It became known yesterday that a mysterious aeroplane was seen hovering over the DuPont powder works at Carney Point, N. J., on the Delaware river, last Monday night, but whence it came or where it went has not been established.

This much was admitted yesterday by an official of the DuPont company, who said some of the company's men saw the airship, which appeared to be making a circular flight. It disappeared in a southeasterly direction.

While the airship could not be seen distinctly, its passenger or operator could easily have located the buildings of the powder plant by the aid of the lights there.

Five Decorative Flowers.

"Choose the 'extra early' cosmos," says the February Woman's Home Companion. "If cosmos is one of your 'must-haves,' and sow the seed in the open ground as early in April as it is possible to do so. This variety will give you flowers by the end of July, and though they will not be as large as the autumn flowering kind, they are lovely and sure—the late bloomers are not, except in the lower altitudes. There are three colors and white: a blue, a real pink and a dark crimson. The plants should be about 18 inches apart; when they are a foot or so high, pinch out their tips to induce bushy growth. They will grow almost anywhere, but do best in a light soil that is not over rich."

"The annual larkspurs have been so much improved, along with many other things, that they really demand a place now in every garden for they are one of the few good blue flowers among annuals. Almost any soil suits them, in sun; and there are a pink and a lilac and a red, besides a white, if blues are not wanted. Sow the seeds in the open ground sometime in April."

REGAL SHOES

Make Permanent Friends

Have you ever tried shoes that wore out their welcome before you walked home in them?

Regals have a way of fitting the feet when you put them on.

And have you ever found shoes that seem to fit for a few days and then go bad?

That's another thing Regals don't do.

For permanent satisfaction, try Regals.

50,000 HOME CANNERS.

Many Southern Girls Help Their Families.

Nearly 50,000 girls in the 15 southern states were enrolled in 1915 in the girls' canning clubs carried on cooperatively by state agricultural colleges and the department. The purpose of these clubs is to encourage girls from 10 to 18 years to grow tomatoes and other vegetables in tenth-acre gardens and to can their products for home use or for sale. These clubs are under the supervision of nearly 400 women agents, who represent jointly the office of extension work, south, of the states relations service, and the extension departments of the several state colleges.

During the first year of membership, these in charge find that caring for one crop, preferably tomatoes, in a tenth-acre garden and selling or canning the product, gives even a very ambitious girl all the work she can do. In the second and later years, however, the girls are encouraged to raise two or three different kinds of vegetables in their plots and to extend their canning operations, as their skill grows, to other surplus products of the farm, and especially to the putting up of small fruit, orchard fruits, and native wild fruits, which make a palatable or marketable product when processed. The principal object of the club is to teach the girls how to keep surplus fruits and vegetables from going to waste, and by canning, to make them a valuable addition to the food supply of the farm home, especially during the winter. Many ambitious girls, however, not only put up enough canned goods and jars of fruit for home consumption, but make a tidy monetary profit besides. While the figures of profits for 1915 are not yet compiled, it is known that in 1914, 7,793 canning-club girls who rendered full reports of their work put up 1,918,024 cans, jars, and other containers of fruits and vegetables, which were worth, according to conservative estimates, \$284,880, of which nearly \$200,000 could be credited to profit. It is estimated that the average profit per member was \$23.30. These figures, of course, do not include the products of many thousands of other children who failed to send in accurate reports but who, it is known, raised and canned thousands of dollars' worth of products from their own gardens and from their fathers' truck patches and orchards.

GIRLS! HAVE A MASS OF BEAUTIFUL HAIR, SOFT, GLOSSY, WAVY

25-Cent Bottle Destroys Dandruff and Doubles Beauty of Your Hair

Within ten minutes after an application of Danderine, you cannot find a single trace of dandruff or falling hair, and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it, if you will just try a little Danderine.—Adv.
